Friday, December 23. 1715.

From the Hague Courant, dated Dec. 20.

Vienna, December 7.

ON Monday last the Foundation of a new Church was begun to be laid before the Karner Gate over-against the Favorita, which the Emperor vowed to build during the time of the late Pestilence to the Honour of God and St. Charles Borromeo. If the Turkish Aga that is upon the Road comes hither, there will be given to him once for all 10000 Florins for his Maintenance, and if he is not contented with that he may return home. Fresh Recruits are daily sending to Hungary both by Water and Land, and the Emperor is resolved to make use of his own Troops only in that War, wherefore 'tis said that the Imperial Troops in the Netherlands will be relieved by Palatine and other German Forces.

From the Amsterdam Courant, dated Dec. 21.

Vienna, Dec. 7. The Grief of our Court for the Death of the Elector of Trier is so great, that none of the Royal Family admitted any body to their Presence for 3 Days. His Highness's Body is Embalmed, his Heart is buried in the Chappel of Loretto, in the principal Church of the unshod Augustines, and his Intraills in the Cathedral Church of St. Stephen under the High Altar. The Corps having lain in State some Days at the Palace, was privately conveyed last Night to the Chamber of the Counts of Buchem in the Church of the Holy Cross of the Minnim-Monks of St. Francis, where it will stand till it be removed to Lorraine. Our Court is gone into Mourning for the Hereditary Prince of Russia. Count Coningseck, who is designed Ambassador to the Court of France, will come hither to receive his Instructions. The Pope's Nuncio is very solicitous not only in recommending the War against the Turks, but also in removing the Emperor's displeasure against the Grand Duke of Tuscany; and 'tis supposed he has talked also of the Affairs of the Roman Catholick Swiss Cantons. The Republick of Venice joins also with the Pope in behalf of the Great Duke, but 'tis believed the Court will not however recede from its Pretension that he shall renew his Investiture. The Duke of Lorraine is soon expected here, and then we shall hear whether the Government of the Austrian Netherlands will be given to him or to Prince Eugene of Savoy.

From the Amsterdam Courant, dated Dec. 24.

Vienna, Dec. 11. The Duke of Lorraine will take into his Service the two Regiments which the Elector of Trier had begun to raise. 'Tis talked that Interest is making for Count Schosborn, Vice-Chancellor of the Empire, to succeed in the Electorate of Trier. We understand that Count Virmond, the Emperor's Envoy to the Northern Allies, is to treat with the King of Prussia as soon the Siege of Straelsund is over, for 10 Regiments to be employed in the Emperor's Service in Italy, whither four Regiments more will also be sent, to have a watchful Eye upon the Duke of Savoy, and obviate any ill Effects of his Alliance with the Dukes of Anjou and Parma. Here runs a Report that the Duke of Modena will be made Governor of the Dutchy of Milain.

Hamburgh, Dec. 20. Letters from Straelsund mention, that when the Count de Croissy dined with his Prussian Majesty, he assured him that the King of Sweden was then in Straelsund. The Swedish Fleet consisting of 16 Sail are still at Sea, but that of Denmark is gone into the Port of Copenhagen to avoid the Ice, whereof the Sea being full was dangerous to them. And we must wait to see how the Swedes, considering the Weather, will get into their Ports. In the mean time some of their Ships have landed some Men

and Ammunition at Straelsund, where there being only the Danish Flotilla, they did not attempt to hinder them, apprehending with Reason, that the whole Swedish Fleet was at hand to support them. Two Letters have been intercepted that were written in Characters by Baron Gortz to the Counts Fleming and Wackerbarth, being directed to the Secretary of the former, named Kirchman, who lives with Count Wackerbarth. He has been demanded to Decypher them, but protesting that he had not the Keys, an Express is sent to Count Fleming to give him Advice of it. This Secretary pretends that Baron Gortz has done that on purpose to render them suspected. Count Wackerbarth was again admitted on the 12th to see the King of Prussia, and had Audience of his Majesty.

The Imperial Resident Kurtzrock has Letters which say, that M. Fleischman, the Emperor's Resident at Constantinople, is put into the Seven Towers; but as there are other Letters which say that he is gone privately from Constantinople, we must wait for more certain Advice.

The Order which the Emperor has published to enjoin the Priests and Ministers of the Three Religions tolerated in the Empire not to Quarrel with one another, either in their Sermons or in their Discourses, has been fixed up here in all the publick Places.

Hague, Dec. 24. After the States-General had caused the Minister of the Elector of Cologne to be told that he must be gone from the Hague in 24 Hours, and in twice 24 Hours from the Dominions of this State, he departed on the 18th at six in the Morning. Since which the Deputies of their High Mightinesses have had a Conference with the Emperor's Minister, to demand of him whether it was with his Imperial Majesty's Approbation that the Dutch Garrison was expelled Bonne: To which he answered in the Negative. We shall without doubt see this Matter better explained when the Evacuation of the Citadels of Liege and Huy come to be treated of; it being very apparent that the States will not withdraw their Garrisons from thence before the Elector of Cologne has given Satisfaction for this Affront, in Contradiction to the 26th Article of the Treaty of Utrecht.

The Count de Tarouca, Ambassador of Portugal, gave last Night a magnificent Ball and Masquerade, which lasted till Morning.

The Turkish Aga who is here, has delivered with his Credentials a Pretention of the Sultan's, which amounts to 150000 Ducats for Damages which his Arabian Subjects sustained by the Capture and Confiscation of Ships made by the Zealand Privateers. Their High Mightinesses have sent to the respective Admiralties to examine into it, and make a just Report: But we are assured that the principal Commission of this Minister is to require the States to observe an exact Neutrality in case the Sultan shall be obliged to enter into War with the Emperor, and oblige themselves not to assist directly or indirectly his Imperial Majesty. 'Tis pretended also that he has Orders to buy up Ammunition here, and to send it to Turkey. But as the Imperial Minister has already had Advice of this, 'tis supposed he has or will make Instances in the Name of his Imperial Majesty, that not only no Passports be given for such Contraband Goods, but that even Orders may be given that no such Effects and Ammunition may be allowed to pass from hence, and 'tis not doubted that he will obtain his Request.

The Marquis de Chateaufneuf, Ambassador of France, has presented to the States-General a Memorial concerning a Convention for the Neutrality of the Netherlands, whereby it shall not

• be permitted to the Parties that may be hereafter  
• at War to pass through the Provinces, much less  
• to make that the Seat of War. The States in their  
• Answer declined this Proposal, alledging that  
• the Netherlands belonging in Propriety to the  
• Emperor, to the Guaranty whereof the King of  
• Great Britain is a Party, it belongs not to them  
• to regulate an Affair of that Consequence. This  
• not yet understood what Views France may have  
• by such a Proposal.
